

Being a **PARENT** or an **EDUCATOR**

is an honour and a privilege that includes
the power to **BREAK** or **MAKE** a child

- Children look up to you, make it count, earn that respect
- Children cannot learn and succeed in fear
- Education is a partnership; parents, teachers and students
- We all have the right to feel valued and safe
- Take care in the way that you communicate... Always
- Don't expect more of anyone else than you expect of yourself
- When speaking to children, ask yourself...

“Would I speak to a friend like this?”

“Would I be happy if a friend spoke to me like this?”

- Nobody is perfect, own your mistakes, take responsibility and make changes, build and mend bridges every chance you get
- We are all working toward the common goal of the best interests of the **CHILDREN**, they are our **FUTURE**
